

To Livestream using classroom camera:

1. Open DV Driver by clicking on desktop icon (or PTZ Driver in CMU 126)
2. Open Livestream Procaster using shortcut icon and sign in with you Livestream account. (You can also Livestream directly from the Livestream.com site in a browser.)
3. Camera should be on 2. DVdriver
4. Click the big “Go Live” button. Anyone can view your live broadcast at your www.livestream.com channel.
5. You can preview your video in the left corner. To make the preview window bigger, click on it.
6. You can switch between showing the camera, showing your desktop, or both.
7. After clicking “Stop” you will have the option to “Delete Recording” or “Save Recording.” Once you delete your recording you cannot get it back.
8. If you saved your recording it will be available for viewing on your Livestream channel.

To Skype using classroom camera:

1. Open DV Driver from the desktop (or PTZ Driver in CMU 126)
2. Open Skype and sign in to your Skype account
3. Click Tools > Options > Video Settings
4. “Select Webcam: DVdriver”
5. Select the contact who you would like to call or video call. Push the green “Call” button.

If you have questions: Call 206-543-6526 or 206-543-4763.
